hp scanjet 8200 – 4800 optical dpi professional image scanner

The HP Scanjet 8200 provides fast, professional quality photo scanning at 4800 dpi resolution. Combine this with the built-in Transparent Materials Adapter (TMA) and bundled software and you have the ultimate digital imaging package.

Designed for creative professionals – such as designers and graphic artists – and other advanced users wanting an attractive, high performance scanner capable of capturing images of the highest quality, from all types of original, as quickly as possible.

Outstanding resolution and image quality at 4800 dpi.

- The world's first flatbed scanner series to offer 4800 dpi resolution.
- Crystal clear results with rich, bright and accurate colours.
- Specifically designed for capturing/processing high quality images.
- Includes Adobe® Photoshop® Elements 2.0 for professional image editing for print or web applications.
- Dual resolution CCD (4800/600 dpi), plus fast greyscale for optimum combination of speed and image quality.

High speed performance for real productivity – instant-on and 4 second previews.

- Instant-on, "no warm-up" scanning.
- Front control panel with 16 character LCD. One-touch buttons including scan, e-mail, power, edit text (OCR) and save to PDF.
- Additional configuration options for customisation.
- Ideal for high pressure environments where quality and deadlines are equally important.
- Fast connection to PC or Macintosh via Hi-Speed USB or optional SCSI-2.

Real versatility – slim, stylish lid incorporates Transparent Materials Adapter (TMA).

- Versatile – integrated TMA for scanning 35 mm slides and negatives.
- Accepts strips of up to three transparencies or negatives at once.
- Easy to use – great results straightaway.
- CCD technology enables scanning from 3D objects such as products or other reference materials for high quality visuals and mock-ups.
