Engineered for  
small business and  
home office.

## Features and Benefits

- **Boost your productivity** — Fast draft and copy speeds — up to 38 ppm (black and color)<sup>1</sup>
- **Get speed without sacrificing quality** — Laser quality documents at about 2x the speed of competitive ink jet printers<sup>2</sup>
- **Easily network within your workgroup** — Built-in Wi-Fi and Ethernet networking
- **Print more, change cartridges less often** — High-capacity Black, Cyan, Magenta and Yellow ink cartridges; Extra High-capacity Black also available
- **Protect important documents** — Smudge, fade, and water resistant, highlighter friendly documents rival those from a laser printer and photos rival those from the lab
- **Send faxes fast, even in color** — Fax in as fast as 3 sec per page; store up to 60 speed dials and receive up to 180 pages in memory; also faxes legal size
- **Print photos without a computer** — Built-in memory card slots, PictBridge™ and 2.5-inch LCD
- **Make quick color copies and enlargements** — One-touch copying with high quality scanning; reduce and enlarge 25 to 400 percent
- **Do more with useful software included** — OCR and creativity software to create flyers, brochures, calendars and more
- **Save paper** — Built-in double-sided printing<sup>3</sup>
- **Save energy** — Uses up to 3x less power than a laser printer<sup>4</sup>
- **Do more in less time** — Copy, scan or fax stacks of documents with built-in, 30-page ADF
- **Get product protection you can count on** — Epson Preferred<sup>SM</sup> program with 2-year limited warranty and 2-year toll-free support, with registration<sup>†</sup>, plus quick product exchange

<sup>1</sup> Draft pages/copies per minute (ppm/cpm) speeds measured after first page, based on black and color text patterns in Draft Mode on plain paper. Laser quality pages per minute (ppm) measured after first page, based on black and color text patterns in default mode on plain paper. Additional print time will vary based on system configuration, software application and page complexity. See [www.epson.com/printspeed](http://www.epson.com/printspeed) for more information about print speeds.

<sup>2</sup> Black text printing about two times faster compared to ink jet printers priced at \$199 or less, available as of April 2008. Based on independent test in default mode printing typical office documents.

<sup>3</sup> Some applications and/or functions, like double-sided printing, are not supported by Mac.

<sup>4</sup> Compared to competitive monochrome laser printers priced at \$199 or less available as of March 2008. Based on Epson testing of power estimated to be used during an eight-hour day.

<sup>†</sup> One-year limited warranty to all purchasers; toll-free support and second-year warranty require registration within 60 days of purchase.

<sup>††</sup> Ink fade resistance ratings based on accelerated testing of prints on specialty media, displayed indoors, under glass. Actual print stability will vary according to media, printed image, display conditions, light intensity, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or properly store them. Visit [www.wilhelm-research.com](http://www.wilhelm-research.com) for the latest information.

<sup>†††</sup> Adapter required.

<sup>††††</sup> We recommend the use of genuine Epson ink cartridges. The use of other products may affect your print quality and longevity and could result in all-in-one damage. Cartridge yields vary considerably based on images printed, print settings, paper type, frequency of use and temperature. For print quality, a small amount of ink remains in the cartridge after the "Replace cartridge" indicator comes on. The all-in-one ships with full cartridges and part of the ink from the first cartridges is used for priming the printer. See [www.epson.com/cartridgeinfo](http://www.epson.com/cartridgeinfo) for more information about cartridges.
